

## Graduate Services

Our commitment to you doesn't stop when you graduate.

After you have graduated you are welcome to come in and continue to practice and prepare for your State Board Examinations with no additional charge.

You will be provided a list of job opportunities along with their contact information.

If you wish you will receive monthly updates of new job opportunities that have come in.

You are welcome to attend any of the "Specialty Classes" offered to our currently enrolled students and again at no additional charge.

You can set up an appointment with one of your Instructors or Mr. Phillips himself and ask questions and get advice about your new career.

And if you ever open your own salon and are interested, Mr. Phillips is available and has for years, advised graduates on everything from location, size, decor, advertising, staff and will review your business plan. His 30 years of experience has helped many graduates make the wright decisions for a successful career. And once again; at no additional charge.
